*Volunteer Trip Activities*

Kenya Connect is providing programs so children can thrive and have options in life. Volunteers support us by creating and teaching lessons, offering health talks, assisting with tech classes, participating in the distribution of Reusable Sanitary Pad kits, helping with literacy programs and Saturday Storytime and serving in many other ways. Volunteers are enriched and inspired by meeting parents, teachers, and the KC staff while also visiting the Woodcarvers Coop and the Basketweavers.

Space is limited so please contact us if you are interested. We provide guidance on travel to Kenya, options for safari and what you will need.
